THE POLICE.

REGULAR WEEKLY MEETING OF THE COMMISSIONERS.

An Ex-Officer Wants His Old Chums to Pay Up—Fighting Officers Before the Board—Officer Wright Wants to Be Investigated.

The regular weekly meeting of the Board of Police Commissioners was held yesterday afternoon at the Mayor's office some time after the regular hour, His Honor being busy taking his successor around and introducing him at the various departments. Several police officers against whom charges were pending were also on hand, and a few regular habitués of the place made up the balance of the audience. Clerk Moffatt read the minutes of the previous meeting, after which a couple of saloon license changes were granted without objection.

Ser. Davis petitioned the board to be allowed to receive \$30 for the capture of a deserter, offered by the Government. Granted.

T. F. Ryan wanted to give \$3.50 for the recovery of a cane, which Detective Glass was allowed to receive.

John Tetler petitioned the board to refund \$50 paid for a saloon license, his place of business having been burned two days after the first of the month. Recommended that the Council refund the money.

The regular weekly reports of the sergeants were read, reporting everything quiet.

Capt. Loomis reported that Officers Bellue and Wheaton had been suspended for cause. The usual weekly bills were read and approved.

A petition was received from residents on Temple street, and streets on the hills, asking that G. S. Buckingham be appointed special officer for that section. Granted. Mr. Buckingham not to receive any pay from the city.

A young man asked permission to stretch a rope across the street for a rope-walking exhibition, which was granted, the show to take place under the direction of the Chief of Police.

The case of Officers Bellue and Wheaton for fighting was then taken up, and Officer Wheaton was sworn, and gave his side of the story, saying that he had borrowed \$5 from Bellue, and that the trouble grew out of that transaction, the latter having threatened to bring the matter before the commission, giving the facts substantially as they have been heretofore printed in THE TIMES. Officer Bellue was then sworn, and made a statement, saying that he had loaned Wheaton \$5 some time last spring, and that it had not been paid, and he only wanted his money. Wheaton, he said, had called him a liar, and he had struck Wheaton, after which he ran away as he did not wish to fight. He was sorry that he had got into a fight, but he could not control himself. Officer Fletcher also made a statement, substantially the same as the officers, as did also Officer Phelan. This closed the case, after which Officer Wheaton was suspended for six days and Bellue for three days. His Honor stated that he was not suspended for striking a man for calling him a liar, but because he did not report the matter to the board.

Ex-Officer Clayton said that he appeared before the board to state that there were numerous officers on the force who owed him money, and he wanted to see if there was any way by which he could get it. He was told to bring the matter before the board in writing.

The charges of drunkenness against Officer Smith were withdrawn and he was given back his star.

Officer Wright asked that a day be set for the investigation of his case, and 11 o'clock Friday morning was set as the date, and Mrs. Watson and Judge Austin asked to be present.

The Loomis-Metzler matter again went over, and the meeting adjourned.

MAGAZINE.

The Century for December is a fitting number for the close of the year, rich as it is with the garnered sheaves of literature—contributions from the pens of some of the best magazine writers of the age. George Kenna still travels with his readers, and together they take up "Life on the Great Siberian Road." What a vast, wide territory they traverse; how dreary the villages they pass; how lonely the treeless plains, and what an epitome of sadness the life of the political exile.

"From Sinai to Shechem," by Edward L. Wilson, is a trip full of grandeur and crowded with interest. We stand face to face with the lonely mountains and wide plains. Rising in their lofty grandeur are Pisgah and the mountains of Nebo. In the vale of Shechem are "gushing cascades and bounding streams, fed partly by the twin mountains. Ebal on the north and Gerizim on the south. Luxuriant olive groves and fig orchards, interspersed with fruit trees of various kinds, are dotted hither and thither, everywhere." It is a journey to be remembered and to be treasured for its sacred interest.

"The Romance of Dollard," by Mary Hartwell Catherwood, is continued with well-sustained interest, and the table of contents is unusually satisfactory. The Century Company, Union Square, New York.

Lippincott for December presents its readers with the completed novel, "Dunraven Ranch," by Capt. Charles King, a story which is a vivid picture of life at a military outpost and upon the outskirts of civilization. It is told with the pen of a ready writer and a close student of men and nature, and it will hold the interest of the reader from its beginning to its close. "To All Women" is a characteristic poem from the pen of Amelia Hives, and it is a sob of passionate emotion, of sorrow and tenderness. The number is of more than usual interest.

Peterson's Magazine for December is a holiday gift in itself. Beautiful steel and wood engravings, effective fashion plates and handsome needlework designs are given in abundance. The literary contents are excellent.

"Out with Mosby's Men" is a southern lady's reminiscence of war-days, told in a delightful way. "Peterson" stands at the head of family periodicals, its stories rank with those of any other magazine, its authors all being well-known writers. The fashion, needlework and household departments cannot be surpassed. Peterson's Magazine, Philadelphia, Pa.

HARRISON'S NOMINATION.

Depew Tells What Steps He Took in the Matter.

The Union League Club of New York held a jollification meeting last night, and listened to speeches by its president, Hon. Chauncey M. Depew, Gen. Sherman and others. It was decided to give Hon. Warner Miller a reception. To a New York Herald reporter Mr. Depew explained how Gen. Harrison's nomination was brought about at Chicago, by stating that when he ascertained that he himself had no chance for a nomination on account of his presidency of the New York Central Railroad system, he, as chairman of the New York delegation, called a conference of the delegates-at-large—Hiscock, Platt, Miller and himself—and proposed that Harrison should be supported as the most available candidate when he should have withdrawn.

He wanted, he said, to have the delegation support Harrison solidly, so that it might have the credit of influencing the final action of the convention in his favor.

He met with opposition among his colleagues, each of whom had some other man as a candidate in view, but he finally brought them around to his way of thinking, and then decided to give a dinner at which the entire delegation should be present to hear the proposition. Speeches were made at the banquet by Hiscock, Miller, Platt and Fassett in support of the scheme, and by the time the dinner was ended every man present was shouting for Harrison. New York voted for him solidly the next day, and he was nominated by acclamation.

AN ASTONISHING CHANGE.

"My dear madam, I never saw you looking so well, and you were so poorly, too."

"Yes, doctor, Joy's Vegetable Sarsaparilla is the greatest thing in the world for run-down, nervous and debilitated women. That's the secret of my appearance."

Up to a month ago Mrs. Belden, an elderly lady, living at 510 Mason street, San Francisco, was filling in health and flesh so rapidly as to seriously alarm her relatives. She now writes: "I have taken but one bottle of Joy's Vegetable Sarsaparilla, but it is astonishing. I am regaining my lost flesh and have not felt as well in years."

Nearly 100,000 Cases Treated.

All diseases of the respiratory organ treated by the most improved medicinal inhalation and the Compound Oxygen Treatment which has such a wide reputation in lung and nervous affections.

We take pleasure in announcing to the public the fact that of late we have introduced the COMPOUND OXYGEN TREATMENT with our system of the trachea in the cure of Asthma, Bronchitis, Consumption, Dyspepsia, Indigestion, Sore Throat, Catarrh, Rheumatism and Nervous Prostration.

As is well known, oxygen is the life-giving principle in the air we breathe and ozone in the air imparts that happy and buoyant feeling after "bunderstoms." Persons often require more oxygen than is in the air around them and ozone, which is found in the air, is opened, tear off collars, loosen the waist and call for a fan to displace the stifling and bring fresher air or pure oxygen, traveling in done mainly to resorts where the air contains more oxygen, and mountains are ascended to breathe the ozone, which is light and ascends from the earth.

Oxygen and ozone are gases, and must be stored up and used by inhaling them. Our apparatus for storing and giving these gases, compounded with other suitable agents, is perfect; and although they are not a cure-all, they are undoubtedly the greatest invention made in the last 25 years in any department of medicine, and the results are truly wonderful.

Oxygen acts by purifying the blood, thereby increasing the circulation, promotes absorption, improves digestion and assimilation, increases the capacity of the lungs, and acts as a gentle stimulant to the nervous system. The London, England, and most truly trustworthy say: "The Compound Oxygen treatment is the greatest discovery of the nineteenth century." (Lergimen, statement.) Lawyers, doctors, and all classes, indiscrimin

THE star-eyed goddess of Destiny does not always pursue the path that fat men travel.

THE Boston Advertiser suggests Pembina as a good name for one-half of Dakota when it is divided preparatory to its admission into the great sisterhood of States. Republican Pembina, that wouldn't sound bad.

AND now comes the charge, from Raleigh, N. C., that one hundred colored women went to the polls in male attire and voted the Republican ticket. Any charge will answer that will enable all Republican votes to be counted out.

THE Philadelphia News states authoritatively that the Democratic Committee has returned to Mr. Cleveland his \$10,000 check. They couldn't give him what he bargained for with it, and its return is a unique exhibition of political tactics.

THE Iowa State Register says that California and not Florida is going to get the great crowd of health and pleasure-seekers this year. Let us make them welcome and treat them honestly by giving them a just equivalent for every dollar that they spend with us.

THE Democratic city of New York sheltered 42,000 paupers in her poorhouses last year, while a much larger number was left uncared for. From the slums and dens of vice a great army of voters went up, and it was in New York, as elsewhere, the more numerous the sums the greater the Democratic majority.

A GREAT many newspapers, both Democratic and Republican, are very busy in the work of Cabinet-making for the new Administration. The business will not prove a profitable one, and the new President will demonstrate when the proper time comes that he is abundantly able to attend to the concerns of his own political household.

ALREADY the beneficent effects of a protection policy are showing themselves in manufacturing districts, now that the hydra-headed monster of free trade has been disposed of by the people. The Pawtucket (R. I.) Times says:

"Mills in this vicinity that a few weeks ago were producing but a small proportion of their capacity are now running night and day."
GEN. VANDEVER, with a label "onto him marked 7000 Republican majority," has thrown a bombshell into the House at Washington, or rather into the Belt known as the "Northern Circuit," by introducing a bill for the division of the State. Southern California may not yet have arrived exactly at her majority, but she is more than an unit and "going on twenty." She will arrive at the goal poco tiempo, if not sooner. (To be continued.)

Immigration and Immigration Plans.

At its yesterday's session the Chamber of Commerce further considered the subject of immigration, and different ways and means to secure it. The "plan of campaign" reported back from the committees on Immigration, Statistics, and Ways and Means, acting jointly, underwent further consideration and discussion, and, without action having been taken upon it, was again referred back to the source from which it emanated, to be matured and perfected.

The original plan, of which this is a modification, originated with the excursionist Warner, and contemplates an expensive expedition of several months through the eastern States, in two exhibit cars, filled with products, stereoscopic views, literature, and several people—the estimated cost of the whole being some \$15,000. The scheme contemplates the raising of this money in the several counties of Southern California, which are asked to join in the movement and send products, together with a representative from each county contributing, to go upon the expedition.

Another proposition, looking in the same general plan, was submitted at yesterday's meeting by A. Phillips & Co., excursion managers. Their plan contemplates two cars, a six months' trip and a cost of \$7500.

Both plans were referred back, to be digested and reported to the chamber later on.

The most interesting and important feature of yesterday's meeting, however, was the "talk" made to the chamber by Mr. Carlisle, formerly manager of the Oregon Board of Immigration. His account of his experience in that work showed that it had been highly successful and conducted at strikingly small cost, when compared with the schemes which are being urged upon the Los Angeles Chamber of Commerce. The methods pursued by the Oregonians appear to have been eminently practical, simple, honest and direct, hence their success. It appears from Mr. Carlisle's report that the cost of sending exhibit cars through the East, on an expedition occupying several months, was only from \$800 to \$1500, and the entire cost of running the bureau for a year but \$5000, or \$10,000 for the two years during which it was under State control. In this time a great quantity of printed information was distributed, thousands of desirable immigrants secured, and large areas of virgin soil converted to the uses of the plow and the home. The greater part of the work was done in the home office, the exhibit-car expeditions being incidental.

Mr. Carlisle, in his talk yesterday, showed himself to be a practical man, capable of doing good work in the line suggested; and, after listening to him, the chamber strongly indicated its purpose to adopt the practical and discard the theoretical in any permanent plans which it may adopt to advance the interests of the city and county, and of all Southern California as well.

A strong movement all along the line—each county of the south putting forth its best efforts and controlling and managing its own expenditures, exhibits and expeditions for itself, but all cooperating in so far as cooperation may be found feasible—will surely produce good results, in which each section will share in proportion to its advantages and deserts.

But the work needs to be pushed with discretion, vigor and energy, and it will not be safe for any city, county or community in Southern California to relax separate effort, upon the theory that they will be "taken care of" by any single central organization, however powerful, earnest or impartial. The best results come from combined individual effort, working for a common end, and cooperating wherever cooperation is practicable, but not otherwise.

The freshly-aroused interest in this important subject of immigration, and the settlement of our vacant lands, augurs much for the good of the country.

Senator Stanford.

The Senator will arrive from San Francisco in his private car early this morning, and at 8 o'clock will be met by committees of the Chamber of Commerce and Board of Trade, for a joint conference relative to San Pedro harbor, as per previous arrangement. The party will proceed to the port, spending most of the day there, and returning in the evening. Senator Stanford will go on to San Diego in the evening or on Friday morning, to consider harbor matters there.

Good results are hoped from the Senator's visit, though as to his gaining much fresh knowledge of San Pedro harbor, that is not to be expected, as he has long had a study of the point and its advantages, and is known to be possessed of accurate official and unofficial information concerning it. His visit will, however, have the effect of impressing upon his Senatorial mind the fact that this southern country is a pretty big country, that it casts a great many votes, indicating a large and steadily-increasing population, and that the commerce of Los Angeles is looming up into metropolitan proportions, demanding for its accommodation a commodious harbor—even a "high-priced harbor," as our neighbors this side of Cape St. Lucas might possibly be constrained to denominate it. The "low passes," however, which are now under consideration are those leading across the Sierras, and upon lines pointing straight to the embarcadero of St. Peter.

One Hundred Years.

President-elect Harrison will take the oath of office just one hundred years from the time of Gen. Washington's inauguration, lacking only a few weeks. The 4th of March, 1789, was the day fixed for the beginning of the new Government under Washington. But on that day only twenty members of the House and Senate had come together, and it was not until the 6th

of April that a quorum was secured in the Senate and the electoral votes were counted by Congress. Then followed the then tedious journey of Washington from Mt. Vernon to New York, which was slow, and constantly interrupted by the orations along his line of journeying, and it was not until the 23d of April that he embarked on Elizabethtown, N. J., in a barge and crossed over to the lower part of New York. Still another week elapsed before he stood in front of the Senate Chamber on Wall street to take his oath of office, at the close of which ceremony his ears were greeted by the cry of Chancellor Livingston, "Long live George Washington, President of the United States," a cry that was taken up and echoed and reechoed by the loyal crowd below.

A hundred years! What changes have come to the Nation since then! It has subdued the continent, and the struggling colonies have become a people honored and respected by all the nations of the globe.

In the campaign just closed we see again the triumph of the principles for which Washington contended—the principles of honest government and of protection for all the best interests of American citizens. We may well rejoice in this, and may look hopefully forward to the future of this Republic.

A hundred years of freedom have taught the people to love liberty. It would be impossible to make slaves of the American people. Sovereigns in their right of citizenship, they will continue to make their own laws, to respect those laws, and see to their enforcement.

AMUSEMENTS.

AT THE OPERA-HOUSE.—The Georgia Minstrels drew a generous house last night and gave a sincere satisfaction to those who like to sing, dance, and have fun. Billy Kersand's moon alone is a natural and artificial phenomenon, quite worth at least half the admission.

Tonight the minstrels for the last time, and tomorrow Peck's Bad Day.

LEAVING THE KNIGHTS.

Many of Powderly's Followers Form a New Organization.

COLUMBUS (O.), Dec. 5.—[By the Associated Press.] District Assembly 135, Knights of Labor, held a session this morning, at which Powderly was present, and set forth the importance of standing by the order. The Miners' Federation held a meeting also during the forenoon, and decided that they would accept no proposition at a joint convention except that looking to a single national union.

There were about 90 delegates present at the joint convention. They at once proceeded to discuss the call for the formation of a new organization, and a large number of speeches were made. When an adjournment was taken, the delegates opposing the new organization and supporting the Knights of Labor being given to understand that they need not return to the evening session unless they were willing to proceed with the miners to organize independently.

Tonight it was decided that the new miners' organization should proceed. W. T. Lewis, master workman of District No. 135, will tender his resignation. The vote on the proposition for an independent organization was 100 to 10. Those who will remain with the district, it is understood, will elect as master workman their worthy foreman, John Roe of Columbus, Pa. The territory represented by the delegates who joined with Lewis in the formation of an independent organization extends from Canfield county, Pa., on the east, to the Indiana boundary, and from Kansas on the west. The organization estimates its following at 85 per cent. of District Assembly 135, they still claim to be members of the K. of L. and will have their membership elsewhere.

THE HAYTIAN IMBROGLIO.

Conflicting Reports as to Secretary Hayard's Action.

NEW YORK, Dec. 5.—All was bustle and excitement at the navy-yard this morning in expectation of official orders from Washington to dispatch a cruiser to Hayti. The commanders of the Yantic, Chicago, Galena and Richmond were busy zettling the vessels in condition for sailing. It was not known which one would be ordered to start.

In compliance with the demands from this Government, the Haytian Government has decided to release the steamer Haytian republic as soon as possible. A new crew will be sent down to bring the vessel back to New York.

WASHINGTON, Dec. 5.—While there is reason to believe that this Government has decided to release the steamer Haytian Republic, recently seized at Port-au-Prince, it is impossible as yet to obtain official information to that effect. Alex. Porter, Master of Washington, who was appointed arbitrator by the Governments of the United States and Hayti to decide on the claim of the representatives of Charles Adrian van Beekman, deceased, for the release of the steamer, has filed in the Department of State and in the Haytian Legation an award in favor of the claimants for \$50,000.

Trying to suppress White Caps.

CINCINNATI, Dec. 5.—The Attorney-General of Ohio was here today in consultation with the Prosecuting Attorneys of Brown and Adams counties upon the best means of suppressing the White Caps. The difficulties of investigation and prosecution. It is probable that the State will supply money for the employment of detectives, and a very possible effort will be made to stop the discredited lawlessness. Meanwhile, warnings are flying everywhere. Berries, the man who was whipped at Sardinia and is now here in a museum, was warned today to leave the museum, and Superintendent Dietson of the police force had also a "notice."

Base-Ball.

ST. LOUIS, Dec. 5.—The American Association of Base-ball Clubs elected their officers tonight. They are: President, secretary and treasurer, Wheeler C. Wickoff of Columbus, O.; vice-president, John W. Spear of Boston; chairman, Chris Van der Aal of Louisville. Columbus was admitted to the association in place of Cleveland, resigned to enter the league.

THE National Press Association.

GALVESTON (Tex.), Dec. 5.—The National Press Association, 112 strong, arrived here this evening. They were entertained at a grand ball and banquet. Tomorrow they leave for Dallas, and from there disperse for their homes.

Pigeon Shooting Match.

DECATUR (Ill.), Dec. 5.—J. R. Stice of Jacksonville and L. S. Carter of Hammond shot a match here today, for the championship of the United States and \$250 a side. The terms were 50 live pigeons, 30 yards rise, ground traps. Stice won, 43 to 42.

Prohibition Knocked Out.

ATLANTA (Ga.), Dec. 5.—At the municipal election today the conservative ticket was elected. This means the elimination of the prohibition question from local politics.

Flooded Mines.

MAUCH CHUNK (Pa.), Dec. 5.—The mines at Nequehuling, this county, became flooded last evening by water. Philip Stevens and William E. were found dead in a mine today. The company's loss is very great.

WASHINGTON.

Another Cabinet Slate Goes to Pieces.

Clarkson Denies That a Place Has Been Offered Him.

A Bill to Divide California Introduced by Vandever.

The Senate Making Rapid Progress in Disposing of the Tariff Bill.—The Whiskey Question Comes Up in the House—Other Doings at Washington.

By Telegram to the Times.

WASHINGTON, Dec. 5.—[By the Associated Press.] A reporter of the Associated Press called on J. S. Clarkson today and asked what truth there was in the report recently published that he had been tendered by the President-elect the position of Secretary of the Interior. Mr. Clarkson said: "If it is worth while to deny any such improbable rumor, you may say that there is no truth in it whatever. I have not been offered that or any other position by President-elect Harrison, nor have I had any communication or conversation with him on any such subject, nor have I had the slightest intimation as to the personnel of the new Cabinet. I have made no changes in my business or newspaper at Des Moines, nor do I contemplate doing so. I am set to attend the final meeting of the National Committee, and to help to settle up business, which will take ten days, when I expect to go home and settle down to my work, which I have neglected for the last six months."

FIFTIETH CONGRESS.

WASHINGTON (D.C.), Dec. 5.—[By the Associated Press.] The Senate. In the Senate Mr. Vest offered a resolution continuing the existence of the select committee on questions touching the meat products of the United States, especially as to its transportation, with leave to sit during the session and through the next recess. Referred to Committee on Contingent Expenses.

Mr. Dawes offered a resolution, which was agreed to, calling on the Secretary of the Interior for information as to alleged outrages and restraint of liberty committed against Indians in this connection to my sons, and what steps, if any, had been taken by the department to protect the persons of females in Alaska from such outrages.

Mr. Hoar offered a resolution, which was referred to Committee on Contingent Expenses, continuing the select committee on relations with Canada, with power to sit during the recess and report at the December session of 1889.

Mr. Plumb offered a resolution, which was agreed to, instructing the Committee on Epidemic Diseases to inquire as to the causes of the introduction of yellow fever into Florida during the past season, and what legislation, if any, is necessary to prevent similar introduction of yellow fever into the United States. No amendment was offered, but Mr. Sherman said that he had very grave doubts as to the practicability of applying these sections without encouraging fraud. He would reserve the right to offer one or two amendments to some of the details.

Mr. Harris gave notice that he would also have some amendments to offer to the internal revenue sections. Various amendments to the internal revenue sections were offered by Mr. Vance and all rejected.

3 o'clock the Union Pacific settlement bill came up as unfinished business and was postponed as the special order till Wednesday next.

Consideration of the Tariff Bill was then resumed.

Mr. Vance offered another amendment, which was agreed to without dissent. It provides that when the health or life of a citizen is endangered by the residue undeposited of an order providing for such person's reasonable comfort and well-being.

Then came section 12, which deals with "import duties," beginning with schedule A (chemical products).

Mr. McPherson called attention to the fact that the rates of duty reported for chemical products were an allowance for remittance of the tax on spirits used in medicines. This remission would, he said, simply operate as an additional bounty to manufacturers of chemical products. No member of the Finance Committee would dissent, but there would be great frauds on the revenue under the provisions for free alcohol in the arts and manufactures. He, therefore, suggested that the provisions for the first year toward the total abrogation of the whiskey tax. He was unalterably opposed to such legislation, or to any remission of the tax on spirits, and to any system which offered a premium on fraud, and this bill virtually did that.

Mr. Allison denied that the proposed legislation was a step toward elimination of the tax on distilled spirits. The discussion then took a political turn.

A vote was finally taken on the motion made by Mr. McPherson to strike out all sections relating to the use of alcohol, and it was rejected—yeas, 17; nays, 34.

Mr. Sherman voted with the other Republicans in the negative.

After disposing of 30 pages of the bill and reaching the end of schedule A (no amendment being offered) the Senate proceeded to executive business and soon adjourned.

In the House, under the call of States, the following bills, etc., were introduced and referred:

By Mr. Oates of Alabama: To regulate immigration.

By Mr. Vandever of California: To divide the State of California into two States.

By Mr. Morrow of California: For the collection of a revenue cutter for San Francisco; also a resolution calling on the Secretary of the Treasury for information concerning the relief of the American whaling and fishing vessels in the Bering Sea and Arctic Ocean.

By Mr. Stewart of Georgia: To establish a graduated income tax, the proceeds of which will be applied to payment of pensions.

By Mr. Anderson of Kansas: Resolution directing the Interstate Commerce Committee to inform the House, after investigation, in what ways and to what extent the railway companies are evading, or by clearing-house or other form of combination, may be seeking to evade, the provisions of the Interstate Commerce Act, in the matter of low freight rates as a result of competition among carriers, and to suggest legislation.

Mr. Cummings of New York presented a resolution for the construction of two steel cruisers to be armed with dynamite guns and torpedo throwers; also for the construction of two steel rams, to be armed with heavy rifle dynamite guns and torpedo throwers.

Mr. Rayner of Maryland offered a resolution making the Postal Telegraph Bill the special order for December 14th.

Mr. Springer of Illinois asked unanimous consent for immediate consideration of a resolution making the "Omni-bus" Bill, for the admission of Dakota, Montana, Washington and New Mexico, the special order for today, the bill to be considered from day to day until disposed of.

Mr. Grosvenor of Ohio objected, remarking it was in consideration of the morning hour.

The House proceeded to consider the Senate bill for adjustment of accounts of

laborers, workmen and mechanics arising under the eight-hour law.

After a brief debate the bill went over without action.

Mr. Payson, from the Committee on Public Lands, reported as privileged matter the bill to grant the title of settlers on the Des Moines River lands in Iowa.

Mr. Rowell made the point of order that the report was not a privileged one.

After a lengthy discussion, the Speaker decided in favor of Mr. Payson.

Before the discussion opened the proceedings were interrupted to enable Mr. Mills to present, and the House to enter, the following order: That Thursday, December 6th, Saturday the 8th, and Tuesday the 11th, immediately after the reading of the Journal, be set apart for the consideration of Senate bill No. 320, the Direct Tax Bill, now in Committee of the Whole, and that at 4 p. m., Tuesday, December 11th, the same shall be reported to the House with such amendments as shall have been agreed upon in committee, and the previous question shall then be considered as ordered on all such amendments, on ordering the bill to a third reading and on its passage, and votes thereon shall then be taken in the House.

Mr. Springer asked unanimous consent for the adoption of a resolution making the Senate bill for the admission of the Territory of South Dakota and the organization of the Territory of North Dakota, the special order for tomorrow, and from day to day until disposed of; and providing that thereafter bills for the admission of Montana, Washington Territory and New Mexico shall be in order until disposed of.

Mr. Payson objected for the present, and called up the Des Moines River Land Bill. After a discussion the bill passed.

GARLAND'S REPORT.

The Attorney-General Makes Many Recommendations.

WASHINGTON, Dec. 5.—[By the Associated Press.] Atty.-Gen. Garland has made his annual report to Congress of the business of the Department of Justice during the last fiscal year, together with statistics of crime against the United States, and a statement of the business of the Supreme Court and Court of Claims.

He advocates the passage of the bill pending in Congress for the appointment of a commission to inquire into the advisability of Government penitentiaries, with provisions for work for prisoners in a manner not to conflict with labor in general. He calls attention to the method of summoning grand and trial juries in the Territorial district in cases in which the United States is a party, and renews the suggestions in his last annual report, advocating certain changes in the judicial system of the United States. He says: "It is impossible to over-estimate the necessity for a change in the judicial system to meet the demands of the constantly increasing business of the country, and I would simply repeat in this connection to my suggestions in my last report, and respectfully urge that some change be made that will remedy the evils complained of on all sides, either the change be in accordance with my views or not."

In regard to the payment of special deputy marshals, he says the appropriation for the current fiscal year for fees and expenses of marshals is \$4,720,000, but by special provision, incorporated in the Appropriation Act, only \$300,000 can be advanced to the marshals. Numerous special deputy marshals were appointed under the law now in force, to serve at the recent election.

To pay these will require a large sum, and if their pay be taken from the appropriation above mentioned, nothing will remain for the expenses of the service of process, and the business of the United States courts all over the country will be seriously impeded. He recommends that the appropriation be made to pay these deputies.

Other recommendations are that marshals be allowed increased expenses in service of process, and that the law of the Interstate Commerce Law, that fees or salaries of marshals be readjusted in accordance with previous recommendations; that employment of substitute attorneys in Territories be authorized, and for a general reorganization of the clerical force on a basis commensurate with its vastly increasing business.

WASHINGTON NOTES.

What the Government May Pay for Indian Lands.

WASHINGTON, Dec. 5.—[By the Associated Press.] Delegate Gifford of Dakota today introduced a bill amendatory of the law providing for a division of the great Sioux reservation in Dakota, and for the relinquishment of the Indians' title to the remainder. The bill amends the law as follows: The reservation is to be opened without the consent of the Indians, while the land is in the hands of the Government, to be deposited to the credit of the Indians instead of \$1,000,000 provided for last session. The lands will be thrown open to settlement during the first two years after the opening of the reservation at \$1 per acre; all lands taken during the next two years at 75 cents per acre, and 50 cents per acre for the residue undeposited after that time. The law of the last session proposed to pay for the lands at 50 cents per acre. A feature of the amendment is an appropriation of \$30,000 to defray the expenses of surveying lands open to settlement.

A RAILWAY'S PROGRESS CHECKED.

The Attorney General has decided that the Secretary of the Interior has no authority of law to permit the Washington and Idaho Railroad Company to construct under a special act of Congress a railroad through the Cœur d'Alene Indian reservation in Idaho Territory in advance of the fixing of an actual payment of the compensation provided for in the act.

Lander Recovered.

MILWAUKEE, Dec. 5.—President Lucas of the First National Bank of Columbus, Ind., recently robbed of a large sum by William Schreiber, the bank-keeper, is in this city in search of some of the plunder. Lucas came from Windsor, Ont., where he made a deposit with Schreiber, and secured a memorandum of places where he deposited his ill-gotten gains. Schreiber arrived in this city Friday and placed \$19,000 in securities in the Merchants' Exchange Bank, then went to Waukegan, Wis., where he placed \$4500 in the Waukegan National Bank, after which he skipped to Canada.

President Lucas secured the Waukegan money yesterday. This morning the Merchants' Exchange Bank delivered the bulk of the plunder. Lucas is now on the way to Chicago, where he expects to add \$6500 from the Chicago bank. Schreiber has been granted freedom from prosecution.

The Golden Gate Special.

"Old Haters" Clerks to Wrong.

CHICAGO, Dec. 5.—It is reported that Frank Bates, a clerk for B. P. Hutchinson, the Board of Trade operator, is missing, and that his accounts are \$20,000 short. John Loneragan, the settling clerk for Hutchinson, is also said to be missing, and it is suggested that there was a conspiracy between them. Their associates among young men on the board say that they lived at a very fast rate.

Mr. Payson, from the Committee on Public Lands, reported as privileged matter the bill to grant the title of settlers on the Des Moines River lands in Iowa.

Mr. Rowell made the point of order that the report was not a privileged one.

After a lengthy discussion, the Speaker decided in favor of Mr. Payson.

Before the discussion opened the proceedings were interrupted to enable Mr. Mills to present, and the House to enter, the following order: That Thursday, December 6th, Saturday the 8th, and Tuesday the 11th, immediately after the reading of the Journal, be set apart for the consideration of Senate bill No. 320, the Direct Tax Bill, now in Committee of the Whole, and that at 4 p. m., Tuesday, December 11th, the same shall be reported to the House with such amendments as shall have been agreed upon in committee, and the previous question shall then be considered as ordered on all such amendments, on ordering the bill to a third reading and on its passage, and votes thereon shall then be taken in the House.

Mr. Springer asked unanimous consent for the adoption of a resolution making the Senate bill for the admission of the Territory of South Dakota and the organization of the Territory of North Dakota, the special order for tomorrow, and from day to day until disposed of; and providing that thereafter bills for the admission of Montana, Washington Territory and New Mexico shall be in order until disposed of.

Mr. Payson objected for the present, and called up the Des Moines River Land Bill. After a discussion the bill passed.

By Telegraph to the Times.

SAN FRANCISCO, Dec. 5.—[By the Associated Press.] This evening Policeman W. S. Thompson shot Chris Rosenberg, from the effects of which he will die. Thompson was off duty, and, filled with wine, was walking along one of the low streets of the city, and stopped at a window to talk with a member of the demi monde. He dragged the woman out of the window and began beating her.

The policeman's row with the woman drew the attention of all along the street, and several women rushed up. Among the first to arrive while the officer was still struggling with the woman was the victim of Thompson's bullet, who, seeing Thompson choking and maltreating the screaming woman, quickly jumped forward to take Thompson away, and either pushed or knocked him down backward into the street. The officer drew his revolver from his hip pocket and advancing a step toward his assailant, Fred Rosenberg quickly ran to Morton street, but Thompson, who was immediately behind, fired another shot, which missed its mark. Rosenberg turned at the corner and ran with all the speed he could down Stockton to Geary. The Southern Pacific officer caught sight of two officers and screamed: "For God's sake save me!" Thompson appeared around the corner in full chase only a few yards behind his victim and with his smoking revolver in his right hand ready for another shot. Quickly following on his other words Rosenberg exclaimed: "Catch that man. He has shot me." The officer tripped Thompson, who fell on the sidewalk. Rosenberg had hardly finished his last words when he fell to the sidewalk in a faint.

Rosenberg was carried into the receiving hospital. Police Surgeon Martineau made an examination of the man's wounds and found that a ball had entered his abdomen from the left side. Dr. Martineau pronounced Rosenberg to be entirely beyond the reach of all human aid, and said that death would be but a matter of a few hours. Thompson was arrested, as also were a number of women who were with him when Rosenberg first arrived at the hospital he gave his name as Chris Rosenberg, in the hope that he would be able to avoid notoriety in connection with the affair. Later in the night he gave his true name, Rosenberg. He was still alive at a late hour, but there is no hope of his recovery.

TWO BE ROBBED.

Adventures of an Alleged Employee
of E. J. Baldwin.

SAN FRANCISCO, Dec. 5.—[By the Associated Press.] Among the arrivals by the steamer Mariposa from Australia, November 24th, was Frank Munro, wife and child, cabin passengers. On the 30th Mr. Munro notified the officers of the steamship line of the loss of a draft for \$3000, and \$10,000, on the Bank of California, while on board the Mariposa. Diligent inquiry failed to reveal any trace of the missing draft. This morning Mrs. Munro appeared at the Oceanic wharf and stated that the family had started on Tuesday evening train for Los Angeles, but on arriving at Port Costa found that two nice young men who assisted them at Oakland had robbed them of their tickets, \$200 in money and some jewelry belonging to Mrs. Munro, leaving them to make their way to Los Angeles. It is supposed the kind-hearted officers furnished them with means to continue their journey, as they left during the day for Los Angeles, where Mrs. Munro stated that he was to take charge of E. J. Baldwin's large stable of horses. He claimed to have been in charge of Mr. Baldwin's horses some years ago and to have an acquaintance among numerous horsemen on the coast. A number of old timers, however, fail to remember such a man, and Mr. Baldwin himself declares if such a statement was made by Munro regarding his trip to Los Angeles, that he stated only what was false.

Mrs. Swearingin, who was endeavoring to get away from him, but without effect. Hughes was arrested, and is now in jail.

SAN DIEGO.

A Big Seawall Now Projected—The
Election.

SAN DIEGO, Dec. 5.—[By the Associated Press.] One of the most important propositions ever presented for consideration to the people of San Diego was submitted in the form of an ordinance at the session of the City Council last night. The proposition is to build a seawall or embankment 200 feet wide on top along the entire water front from Ivy street, in the middle of the town, to the foot of Tenth street, a distance of about a mile and a half. The seawall is to be located between the points of high and low tide. The project of this undertaking, Lingen, W. Bates of St. Louis, is now being pushed, and it is understood that he has most of the necessary machinery and appliances already on hand to begin work. The idea is to furnish terminal facilities for all railroads entering the city, besides warehouses, coal bunkers and all shipping business of the water front. The charges to be collected will be subject to the regulations of the Council, and the city will have the option of purchasing the system at the end of five years by paying the net cost and 10 per cent interest on the investment.

He Expires While Seeking for One
More Dose.

SAN FRANCISCO, Dec. 5.—[By the Associated Press.] About two weeks ago James Haley and two other young men were arrested in a back room on Clay street as being addicted to the excessive use of morphine. They were sent to the House of Correction, but Haley's condition becoming worse he was transferred to the City and County Hospital. He escaped from there, and was found today in the Chinese quarter, hobbling along in search of a haunt where he could satisfy his craving for the drug. He was so far gone, however, that he could not walk, and was taken to the hospital, where he died shortly after being discovered, and died soon after he was taken to the Receiving Hospital.

Warden Aull of Folsom Prison states that the earnings for the year were \$19,361 and the cost of maintenance \$128,864. There were 421 prisoners. The net profit made by the State on the sale of jute bags was \$11,130, and on saw and door manufactures \$32,356. There were 1817 prisoners received and 443 liberated. From Warden McComb's report it would appear that one-half the crimes committed are due to the use of opium.

The Marshall Monument.

SAN FRANCISCO, Dec. 5.—The Marshall monument is finished and will be shipped to Coloma on Friday. It is 10 feet high, weighs 650 pounds, being of zinc, and is one of the best pieces of work ever done here. The figure is in an easy attitude, the left foot advanced and the right foot firmly planted a few inches behind. In the right hand is a large nugget of gold. The left hand is extended, with the forefinger pointing downward to the historic mill race where gold was discovered. Marshall is attired in typical miner's costume. But a heavy revolver projects from his belt on his right side, and is balanced by a bowie knife at the left. The weapons are suspended from a leather belt, which is drawn tightly around the waist. THE HALTER'S SUBSTITUTE.

Experiments with the Killing Power
of Electricity.

NEW YORK, Dec. 5.—[By the Associated Press.] On January 1, 1889, the law requiring electrical executions goes into effect, but until today no amount of character or of the current required to make death certain and instantaneous had not been determined. The experiments upon dogs last summer by Harold P. Brown, an electrical engineer, were criticised because the weight of the animals killed was less than that of a man, and it was supposed that more current would be required to kill a human being. On that account, this afternoon, Brown was given an opportunity to make a demonstration before a bridge T. Gerry, the author of the electrical execution law, and a committee appointed by the Medical-Legal Society to report on the best method of putting the law into effect. The experiments were made at Edison's laboratory, and the first victim was a calf weighing 124½ pounds. The hair was cut on the forehead and on the spine behind the fore legs, and sponge-covered plates, moistened in a solution of sulphate of zinc, were fastened in place. The resistance of the animal was 3200 ohms, but until today an amount of 700 volts was applied for 35 seconds and the animal was dead. It was at once dissected by Drs. Ingram and Bioreau, but the brain, heart and lungs were found to be in normal condition and the lungs were pronounced fit for food. A second calf weighed 142 pounds and had a resistance of 3300 ohms. The deadly alternating current of 700 volts was applied for five seconds, and the animal died. The weight question, a horse weighing 1270 pounds was next killed by passing an alternating current of 700 volts through the body. The resistance of this animal was 11,000 ohms. The experiments proved the alternating current to be the most deadly force known to science and that the half of the current used in this city for electric lighting by this system is sufficient to cause instant death.

THOSE SECEDEERS.

An Explanation of the Action of In-
diana Grand Army Men.

INDIANAPOLIS, Dec. 5.—[By the Associated Press.] The movement started by Adj. Gen. Koonitz and a few associated Democratic veterans, looking to a withdrawal of Democratic members from the Grand Army of the Republic and the formation of a new benevolent soldiers' organization or order, is given an entirely different coloring tonight by statements directly from Adj. Gen. Koonitz, who seems to be the fountain-head of the movement. He stated this evening in an interview that the new organization was not antagonistic to the G. A. R. He claims that all newspaper statements of secession are entirely untrue. Nevertheless the point is a new one here. The constitution and by-laws of the new organization are not yet forthcoming to the public. A meeting of some fifty Democratic veterans was held tonight, presided over by Adj. Gen. Koonitz, at which an executive committee was appointed by the chair, with instructions to press the organization of a subordinate body, without the State. From a Democratic veteran, familiar with the new movement, it is learned tonight that the entire character of the movement has undergone radical and radical changes. He admitted that the original idea was to induce Democratic members to withdraw, and found another benevolent order something on the same plan as the G. A. R. This project, however, has been completely abandoned, and in its stead a movement is substituted to simply to join Democratic veterans into political clubs, the members of which will in no case conflict with a G. A. R. membership. The new clubs are to be purely and openly political.

The climate of the peninsula whereon

this gorgeous structure stands

is both

PRESERVATIVE AND RESTORATIVE.

Residents of Los Angeles readily ad-

mit the fact that the night air is much

warmer than that of Los Angeles dur-

ing the winter and so balmy that peo-

ple can sit outside in the evenings.

There is NO MUD and LESS FOGS

than prevail back in the country. The

temperatures during the winter is 3 to

warmer at Coronado than that of the

most favored of the world-renowned

Mediterranean resorts.

PASADENA NEWS.

THE "CROWN OF THE VALLEY" IN FESTAL ARMY.

Corner Los Angeles—Postoffice Square—District Meeting of the I.O.G.T.—Interesting Personalities—For Four.

PASADENA, Dec. 5.—[Correspondence of The Times.] A large number of young men are in the habit of congregating on the street corners and in front of stores in the vicinity of Fair Oaks avenue and Colorado street. This has become so much of a nuisance that it cannot be tolerated any longer. The police should clear the crowd and make way for pedestrians.

Special Officer D. J. Behen is a candidate for honors as policeman and watchman to the inhabitants of Olive-wood. Mr. Behen is a faithful officer.

The Young Men's Christian Association, which began its career just one year and a half ago, was never in a better and more flourishing condition. Over 400 young men are on the roll of honor. A series of entertainments have been provided for the winter, and the secretary urges everybody, both young and old, to come out and become acquainted. There is no excuse for one not knowing his neighbor.

What Pasadena wants is several manufacturers. There are scores of good mechanics unemployed here, and our moneyed men should do something to keep them employed. To starve them out of the country would be financial ruin. While they are with us let us do something to help them earn their daily bread.

The teachers' Bible class of the Presbyterian Church held their regular meeting this evening. Other Sunday-schools in the city are forming the same kind of classes.

What's the matter with the gas furnished us? It's all right. It will turn up brilliantly some evening in the immediate future.

Bayard T. Smith and family removed today from the Carlton Hotel to their residence at Oak Knoll.

An important business meeting of the Universalist Church was held this evening. An election of officers for the ensuing year took place.

This evening is prayer-meeting night, and a large congregation is in attendance in the several churches.

It is quiet in police circles. Not an arrest in 10 days. Did our citizens ever stop to think what a peaceful city our habitation is?

The Universalist Church fair commences tomorrow evening, and will conclude the following evening. The ladies of the church have prepared a lunch for the hungry, and many fancy articles for the rich in pocket.

Pasadena must indeed be a healthy city. Not a death in a week, and only three marriages. The average death rate in eastern cities of 9000 inhabitants is 23 every month. In the same time 32 couples are made happy, and 19 infants ushered into the world.

The display in some of the windows of the jewelry stores about the city is indeed attractive. The holidays are upon us, and every good goldsmith knows how to greet the public eye.

John Robbins of the police force, who has been off duty for several days, will report for his beat tomorrow.

J. A. Buchanan, Ensign Knight, and R. Williams are members of a committee appointed by the Board of Trade to confer with the Council in reference to being incorporated as a city of the fourth class.

The District Lodge of the Independent Order of Good Templars meets one week from this evening in Williams's Hall. It is expected that the various lodges will send a fair number of representatives, and in all 150 members, and will give the visitors a royal welcome.

In the hall, speeches will be made, to which the public are invited to listen. Afterward the home lodge will tender the visitors a grand banquet.

THE POSTOFFICE.

It looks a great deal at present as if we are to have another fight over the location of a postoffice. This same kind of a squabble took place last spring, and over a half dozen parties at that time offered building sites to the Government. One of the best propositions was made by a Mr. Legge on the corner of Union street and Raymond avenue. A petition was drawn up and numerous signed. Work was commenced and building lots in the city near the proposed location advanced 50 per cent. For some unaccountable reason or other the excavations on the new site are ordered stopped by the Government.

The proposition is awarded to E. C. Webster, and he at once had the office removed to his new building on Raymond avenue. A few days afterward excavations were begun for the new government building on the lot adjoining the present location. Ground was thrown out, and this is the extent of the work commenced. Now, since the change in administration another half dozen offers have been made. One is to erect the building in the Arcade block. Another is to let it remain where it is at present stands. A third is to accept the Legge proposition, and the fourth a proposition by P. G. Wooster. At this rate Pasadena will have six postoffices and one postmaster. For pity's sake, gentlemen, why not leave this postoffice muddle alone? Flow up your lots and cultivate your orange orchards; look after your homes, the prosperity of your town, and lastly, but not least, invite iron manufacturers in the East to come here and build palaces of iron, where you can give employment to your idle citizens.

Two street fakirs in the town serve to give some life to the city this evening. Patience medicine and electric shocks go a great way in pleasing the populace.

The Pasadena Colored Quartette Club made a short tour of the streets in an open conveyance this evening. All along the route they rendered some very fine selections of music, consisting of plantation songs and songs of America's poets and singers.

The Pasadena Serenade Club attended in a body the festival given by the ladies of the G.A.R. Their musical selections were much appreciated and were a prominent feature of the evening's entertainment.

PERSONAL.

W. H. Storms and W. U. Masters of the Union left this evening for a week's trip in the Mojave desert.

A. Winfield, New York, and S. A. Wiggins of Kansas City are at the Acme.

F. Koenig of New York City, Mrs. C. A. Stone, Miss S. Stone, and Miss Bessie Stone of Brooklyn, N.Y.; C. C. Seaman, San Diego; George B. Ferguson and L. D. Ross of San Francisco, registered this evening at the Carlton.
